

This course taught in English emphasizes technical fundamentals and testing methods for the Sulfur Recovery Unit. SRU equipment design and optimization will be discussed. Capacity Evaluation is included to give the Engineers an overview on how to evaluate process/equipment, if they are planning to increase or decrease capacity.

You will learn

- SRU Fundamentals and Basic Operations
- SRU Testing Methods and Analysis
- Design and Optimization
- Capacity Evaluation

Who should attend

All who are interested in obtaining essential information about SRU fundamentals, basic operations and design. Engineers and operators who are being challenged by changing composition and capacity, those who wanted to learn on how they could optimize or operate the plant to its maximum recovery efficiency. This course will assist all disciplines including process engineers, operation engineers, project engineers, and design engineer or any others that are willing to attend and obtain more information in their field.

Testimonials

“I went to Noel’s training course for SRUs when I was first getting involved with the refining industry. His detailed review of the processes and overview of troubleshooting have made me the go-to individual at my company for sulfur recovery unit problems.”

Stephen Karns
Application Specialist | Refineries & Petrochemicals
HarbisonWalker International

“Most people attend the seminars because they want to learn something they can take home with them and actually put to use. Noel is one of the best instructor’s I have come across in the sulfur world who can help you understand what you came to learn.”

Vaughan Birch
SRU Supervisor
NCRA

Hotel NH Buenos Aires City

9 Nov. 2018

Training starts at 0900 and finishes at 1730. The program includes catered lunch and breaks. Attendees also receive a training manual that can serve as a valuable office reference. Dress code is casual.

Noel Vicente

Noel Vicente has extensive knowledge and experience in the sulfur recovery industry having worked with Sulfur Recovery Engineering, Sulfur Engineering Solutions, and now Sulfur Unit a part of Refining Community.

Noel has worked in all aspects of the Sulfur Recovery Unit such as Analytical and Field Testing, Operations and Troubleshooting, Pre-Commissioning and Commissioning, Process Engineering and has been involved with the start-up/shutdown of various refineries and gas plants worldwide.

On top of his credentials, Noel is an experienced instructor/trainer, who is able to make difficult concepts easy to understand for all. He conducts onsite training for sulfur plant operators and key staff for refineries and sour gas processors around the world. Noel also teaches fundamental engineering theory review courses to foreign trained engineers.

Training Pass

Includes catered lunch and breaks.

SRU Process and Operations Engineering (9 Nov. 2018)

Before 24/9

\$795

After 24/9

\$895

Conference Pass Options

Conference pass includes catered lunch, breaks, and cocktail receptions.

	Early Before 24/9	Regular After 24/9
Refiner Pass (Wed-Thu, 6-8 November 2018)	\$1,090	\$1,290
Vendor Pass (Wed-Thu, 6-8 November 2018)	\$1,480	\$1,580

Registration Form

Early registration ends
24 Sept. 2018

Conference Schedule

	5 th -Monday	6 th -Tuesday	7 th -Wednesday	8 th -Thursday	9 th -Friday
0900-1730	Training	Training	Conference & Exhibition	Conference, Exhibition & Training	Training
1730-1830		Reception & Exhibition	Reception & Exhibition

Registrant Info and Payment

Prefix _____ First Name _____ Last Name _____

Job Title _____ Company _____

Mailing address _____ City _____

State/Province _____ Postal code _____ Country _____

Registrant's email _____ Registrant's phone _____

Signature _____ Date _____

Payment amount _____ Check Wire Transfer Mastercard American Express Visa

Name on credit card _____ Card expiration date _____

Credit card number _____ Security code _____

Payment is due prior to the start of the conference or training. Fees will be charged to your credit card at the time of registration unless other arrangements have been made. Make checks payable to "Refining Community".

Refund Policy

Fees are fully refundable until 15 October 2018 (three weeks before the event), after which a \$200 USD fee will be charged for cancellations. Registering for this training course prior to 15 October 2018 will help maximize the probability that the course will proceed as planned. Cancellations after 29 October 2018 (1 week before class until 24 hours before class) are charged a 50% fee. All other cancellations and no-shows are non-refundable. Substitutions are allowed. Submit all cancellations and transfers in writing, by email or by fax.

Prices are in US Dollars

Checklist

Register early to benefit from scheduled advertising and promotions.

Send a separate form for each person or register online at your convenience.
