DOPAK CLOSED VENT SAMPLING SYSTEMS FOR LIQUIDS, GASES AND LIQUIFIED GASES

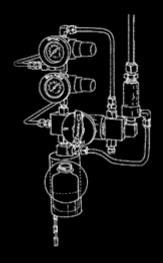

Liquids

OPEN VENT SAMPLING

Dopak Inc
Bergschenhoek
Netherlands

Dopak Inc Houston TX USA

WWW.DOPAK.COM

Objectives of sampling system

✓ <u>Provide safety for the operator</u>
 No contact with the product to be sampled
 Easy (one handle) operation

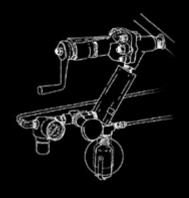

✓ Provide safety for the environment
 No spillage, no fumes

✓ Provide a 100% representative sample

Sample containers - Bottles

Dopak
Bergschenhoek
Netherlands

Dopak Inc Houston TX USA

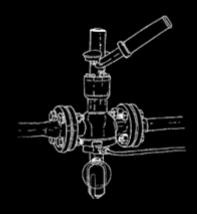

✓ Bottle closed with cap and septum

√ Needle assembly/sleeve arrangement

Dopak Inc Bergschenhoek Netherlands

Dopak Inc Houston TX USA

<u>Sample containers - Cylinders</u>

- ✓ Cylinder with valves and QC couplings
- ✓ Outage for liquids (external/internal)
- √ Closed vent / DESO QC
- ✓ Product at process pressure

Gas

DPM series

Applications

Liquids at lower pressure
Sampling with lower vapour pressures
Corrosive, hazardous liquids
Viscous fluids, slurries
Sampling from pipelines and tanks

Available Configurations

On/off
System purge
Back purge
Needle purge

Back/needle purge

System purge and continuous needle purge In line, needle purge

The Worldwide Standard in Sampling

Dopak Inc Bergschenhoek **Netherlands**

Dopak Inc **Houston TX USA**

WWW.DOPAK.COM

S32-G series

Applications Gas sampling

Available Configurations

System purge Bypass purge cylinder Process to flare

The Worldwide Standard in Sampling

Dopak Inc
Bergschenhoek
Netherlands

Dopak Inc Houston TX USA

WWW.DOPAK.COM

S32-LG series

Applications

Liquefied gas sampling
Fixed external outage
High vapour pressure liquids
Zero quick connect vapour release

Available Configurations

System purge
Vent to flare
Outage tube
Purge expansion
Bypass purge cylinder

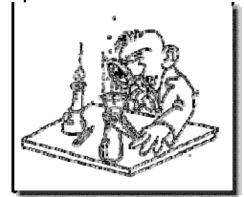

ENGINEERED PRODUCT

Design requirements

- ✓ <u>Specification</u>Pipe or instrumentation specification
- ✓ <u>Criteria</u>
 Design/operating pressure temperature, viscosity, phase, particles. Product properties
- ✓ Representativity
 Dead volume
 System purge
 External purge
 Contamination

✓ Safety

SAFETY IMPROVEMENTS
