MORE PRODUCTION - LESS RISK!

Coking and CatCracking Conference  
New Delhi, India – October 2013

# Workshop Using Light Straight Run Naphtha, Lighter Crudes or Condensates as Feedstocks

- How light feedstocks (LtFDS) affects the FCC base operation?
- Who is addressing these types of feedstocks?
  - 100% Lt FDS or blends
- How are these feeds processed?
- Who uses process modeling ? How do LtFDS affect the models performance?
- Integrating other refinery process feeds?
  - Example Coker naphtha, Hydrotreater wild naphtha
