

Showcase your leadership in the Refining Community and gain hundreds of quality leads!

eREFCOMM Webinars are the virtual location for technical sharing and remote networking. In the spirit of our live conferences, these interactive activities will be focused with a topical short presentation followed by Q&A.

Get involved. Supplier companies can present a webinar to showcase industry expertise, increase brand visibility and build relationships with a targeted audience. A typical webinar includes 100-300 international industry professionals focused on either Delayed Coking, Fluid Catalytic Cracking, Solvent Deasphalting, or Sulfur Recovery.

eREFCOMM is a great way to attract targeted leads and promote your company as leaders in the Refining Community. By presenting an eREFCOMM webinar, your company will receive brand acknowledgement and promotion before, during and after the session as well as point-to-point contact with a targeted audience. Sponsorships are offered in a variety of levels. Speak to our team to find the one that fits your budget and goals best.

Testimonials

I like the webinar format. Real nice, seeing different types and configurations from suppliers. I get the most out of hearing coker operators - what they hear and see.

I used it as an educational tool. Interesting. Hope you offer more.

Went very well. Hot topic of debate.

It's tough presenting to a computer. Evan did a good job.
