

REFCOMM[®]

BUENOS AIRES 2018

Interpretación en vivo en español e inglés

Live interpretation in Spanish and English

More Production with Less Risk:

Delayed Coking and Sulfur (Amine, Sour Water, Claus, Tailgas)

RefComm is the premier technical forum for project and process engineers, operators, maintenance, and other leaders to share knowledge and ideas relating to Delayed Coking and Sulfur Recovery. All presentations will have live simultaneous translation into English and Spanish.

Delayed Coking Unit (DCU)

We will be discussing coker safety and reliability, drum de-heading safety, operations best practices, targeting more liquid yield, DCU material balance, steam purge valves, lockout/tagout, feed, decoking, and more.

SRU (Sulfur Recovery Unit)

Government legislation around the world has imposed more stringent guidelines on sulfur recovery and emissions. Keep up on the tighter regulations and new technologies.

With the volatile crude oil environment, you need to leverage technology to achieve success.

Examine case studies, network informally to build relationships, share lessons learned, evaluate strategies and explore innovations. Increasing your knowledge will spark your productivity and enhance your competitive advantage. <http://refiningcommunity.com/refcomm-buenos-aires-2018/>
