REFCOMM[®]
GALVESTON 2019

More Production and Less Risk

Delayed Coking, CatCracking, and Resid HydroCracking

RefComm® is the premier technical forum for project and process engineers, operators, maintenance, and other leaders to share knowledge and ideas relating to the Coker, CatCracker, and Resid HydroCracking

Delayed Coking

Compare notes on how others are preparing for MARPOL. Sharing coker safety and reliability, operations best practices, processing non-standard feedstocks, wireless/intelligent equipment, lessons learned from startups and turnarounds.

CatCracking

Learn about maximizing FCC flexibility, catalysts and additives, balancing feedstock options, equipment re-ramps, controlling emissions, operations and troubleshooting, unconventional growth with IIoT, reducing turnaround costs.

Resid HydroCracking

A boots on the ground approach to operations, engineering (technical support), maintenance (preventive, routine, and turnaround), inspection, and design (engineering, procurement, and construction) where we openly discuss issues and solutions that are common, so that solutions developed after 20+ years of operating an ebullated bed unit can be applied to a fixed bed unit and a slurry bed system.

After building bridges in this new rHDC community, breakout sessions focus on specific process configurations. For instance, the morning sessions will be common to all rHDC unit styles while the afternoon sessions will be informal discussions specific to ebullated bed, fixed bed, and slurry bed unit types. By gathering together as a community first, we find common ground and solutions then allow time to get into the very unit specific nuances with peers from other units globally.

RefComm® is recognized as the premiere worldwide conference for Delayed Coking, Fluid Catalytic Cracking, and Resid HydroCracking. When coping with Tier 3 regulations and leveraging existing assets with automation and the Industrial Internet of Things (IIoT), staff knowledge is easily overlooked. With operational excellence in mind, RefComm caters to the operators in your units. The week starts with 2 days of training, followed by the technical conference and 100 exhibit booths with the latest technologies. Send your crews. Get them better equipped to run efficiently and safely with **More Production and Less Risk!**

Moody Gardens Convention Center
April 29 - May 3, 2019

Conference

Wednesday - Friday

Expand your knowledge of industry profitable practices, new technology and lessons learned for existing and new plants.

Exhibition

Tuesday - Thursday

The Exhibition opens Tuesday evening with the Welcome Reception and continues Wednesday and Thursday during networking breaks and evening receptions.

Training [page 2](#)

Monday - Tuesday & Friday

Training courses by industry experts for DCU and FCCU. Separate registration required for Conference.

Registration Form [page 3](#)

Training

Delayed Coker Operations and Reliability

Mon-Tue, April 29-30 with Gary Pitman

For new and experienced workers who want to broaden their understanding of the delayed coker unit.

Coker Process, Design, and Troubleshooting

Mon-Tue, April 29-30 with Evan Hyde

This advanced course covers the design, operations and troubleshooting of the delayed coker.

Mechanical Integrity and Reliability of Coke Drums

Mon-Tue, April 29-30 with Dr. Mahmud Samman

Hone skills needed to understand coke drum mechanical and structural failure modes, manage their integrity in an efficient manner and improve reliability, performance, and safety.

FCCU Process Fundamentals and Recent Developments

Mon-Tue, April 29-30 with Christopher F. Dean

No longer just a fuels producer, the FCCU is producing petrochemical feedstocks, pretreating tar sands and producing biofuels.

Training courses conducted by expert instructors using a variety of learning techniques: lecture, discussion, visuals, hands on practice, and sometimes actual equipment.

Your course pass includes lunch and coffee breaks. Attendees also receive a class manual that can serve as a valuable office reference.

Get a conference pass to join in the discussion in the Conference Halls and Exhibition.

Conference Pass Options

Refiner Price:

	Early Before 3/18	Regular After 3/18
CatCracking, Resid HydroCracking Pass (April 30 - May 2)	\$970	\$1,080
Coking Pass (April 30 - May 3)	\$1,095	\$1,195

Vendor Price:

Coking, CatCracking, Resid HydroCracking Pass (April 30 - May 3)	\$1,095	\$1,195
--	---------	---------

Training Pass

Includes catered breakfasts, lunches and breaks.

	Before 3/18	After 3/18
Delayed Coker Operations and Reliability (April 29-30)	\$1,495	\$1,595
Coker Process, Design, and Troubleshooting (April 29-30)	\$1,495	\$1,595
Mechanical Integrity and Reliability of Coke Drums (April 29-30)	\$1,495	\$1,595
FCCU Process Fundamentals & Recent Developments (April 29-30)	\$1,495	\$1,595

Registrant Info and Payment

Prefix _____	First Name _____	Last Name _____
Job Title _____	Company _____	
Mailing address _____	City _____	
State/Province _____	Postal code _____	Country _____
Registrant's email _____	Registrant's phone _____	
Signature _____	Date _____	
Payment amount _____	Check	Wire Transfer
	Mastercard	American Express
		Visa
Name on credit card _____	Card expiration date _____	
Credit card number _____	Security code _____	

Please indicate your area of interest in a percentage equaling 100%. For example DCU 70% FCC 30% DCU _____ FCC _____ RUH _____ Other _____

Payment is due prior to the start of the conference or training. Fees will be charged to your credit card at the time of registration unless other arrangements have been made. Make checks payable to "Coking.com Inc".

Refund Policy

Fees are fully refundable until April 8, 2019 (three weeks before the event), after which a \$200 USD fee will be charged for cancellations. Registering for this training course prior to April 8, 2019 will help maximize the probability that the course will proceed as planned. Cancellations after April 22, 2019 (1 week before class until 24 hours before class) are charged a 50% fee. All other cancellations and no-shows are non-refundable. Substitutions are allowed. Submit all cancellations and transfers in writing, by email or by fax.

The initial purpose of collecting your contact data is to inform you of details relevant to your participation at RefComm®. We will also use the data to notify you of other conferences, tradeshow, training and consulting services.

Registration Form

Early registration ends
March 18
